OBJECTIVE

Motivated B.Tech student specializing in Artificial Intelligence and Machine Learning (CGPA: 6.85) at JK Lakshmipat University, seeking an entry-level AI/ML Engineer role. Proficient in Python, machine learning fundamentals, and backend systems, with hands-on project experience in NLP, speech processing, data modeling, and algorithm design. Eager to contribute to AI-driven solutions while growing under experienced mentorship.

EDUCATION

JK Lakshmipat University – Jaipur, Rajasthan | 2024 – Present
B.Tech, Computer Science Engineering (AI/ML) | CGPA: 6.85

Sophia Sr. Sec. School – Kota Junction, Rajasthan | 2011 – 2022
Secondary (Class X): 90.1% | Senior Secondary (Class XII): 85.8%

TECHNICAL SKILLS

Programming: C, C++, Python, JavaScript (JS), SQL, HTML/CSS
ML/AI Libraries: NumPy, Pandas, Matplotlib, Scikit-learn, OpenAI Whisper
Backend & Web: Flask, REST APIs, Chart.js, pytest
Databases: SQL (Relational Design), MongoDB Atlas, Firebase Console
Tools & Platforms: VS Code, GitHub, Netlify, Vercel, Render, Figma (Wireframes)
Core Concepts: Data Structures & Algorithms, Database Systems, Software Engineering, Cloud Computing, Design Analytics
Languages Spoken: English (Fluent), Hindi (Native)

PROJECTS

Movie Review Sentiment Analysis | May – Jul 2026 | GitHub
- Built an end-to-end NLP pipeline that classifies movie reviews as positive or negative using TF-IDF (unigrams and bigrams) with a Logistic Regression classifier.
- Wrote a text-preprocessing module (HTML/URL/punctuation cleanup) and evaluated the model on accuracy, precision, and recall.
- Exposed predictions through a Flask REST API (single, batch, and health-check endpoints), a CLI, and a simple web UI; added a pytest test suite.
- **Technologies:** Python, Scikit-learn, Pandas, Flask, pytest, joblib.

WeatherML – Weather Forecasting Dashboard | May – Jul 2026 | GitHub
- Developed a full-stack forecasting system using OLS linear regression with seasonal decomposition, 95% prediction-interval bands, and Z-score based anomaly detection across five Indian cities.
- Implemented model evaluation using MAE, RMSE, R^2, and ±3°C accuracy; built an interactive multi-tab dashboard with 7-day and hourly forecast views.
- Delivered both a browser app (JavaScript, Chart.js) and a Python CLI with Matplotlib plots, using synthetic climate data for demonstration.
- **Technologies:** Python, NumPy, Pandas, Matplotlib, JavaScript, HTML/CSS, Chart.js.

Speech-to-Text Transcription Tool | May – Jul 2026 | GitHub
- Created a Flask web app that transcribes uploaded audio files (WAV, MP3, M4A, OGG, FLAC) and microphone input, with downloadable transcript output.
- Integrated three recognition engines (Google Web Speech, OpenAI Whisper, CMU Sphinx) with selectable language support, including Hindi and English.
- Built REST endpoints for file/mic transcription, transcript download, and health check, with upload size limits and automatic cleanup of uploaded files.
- **Technologies:** Python, Flask, Whisper, SpeechRecognition, PyAudio, pydub, JavaScript.

DBMS-Based Notebook Application | 2024
- Designed and implemented a full relational database schema to manage notebook entries, users, and metadata.
- Developed SQL backend logic for retrieval, insertion, and optimization, applying normalization and system integration to deliver a functional end-to-end application.
- **Technologies:** Python, SQL, Firebase Console, VS Code.

Machine Learning Model Development (Academic Projects) | 2024 – Present
- Built and evaluated supervised and unsupervised learning models, including regression and classification algorithms.
- Performed data preprocessing, feature engineering, and hyperparameter tuning in Python notebooks using NumPy, Pandas, Matplotlib, and Scikit-learn.

CERTIFICATIONS

Data Structures & Algorithms · Database Systems · Design Analytics and Algorithms · Cloud Computing · Software Engineering

ACHIEVEMENTS & ACTIVITIES

- Top performer in Weekly Coding Contests – 3rd Semester.
- Volunteer (Sabrang '24) and Coordinator (Sabrang '25), annual cultural fest at JK Lakshmipat University.
